- Vision
- Covered CA

Other activities and opportunities:

- Hula Dancing
- Yoga demonstration
- many more activities to come!!

Who is Tri-City Health Center?

For over 40 years Tri-City Health Center has grown with the community we serve. Within that time, Tri-City Health Center has delivered quality and affordable health care services to Alameda County. Our culturally competent staff is uniquely able to serve our diverse patients' needs. Collaborative partnerships and generous support in the form of grant based funding have helped us extend the breadth of our comprehensive health care programs and services.

Tri-City Health Center's team covers the health care needs of people at every age. A key characteristic of our approach is the continuity of quality care that is patient-centered: patients benefitting from consulting with the same primary care provider on a regular basis. We empower patients to take control of their health by offering comprehensive medical, dental, vision, and preventative care from a staff that represents our culturally diverse community. Unlike other low-cost providers, TCHC provides our patients with insurance counseling and care advocacy, along with sliding-scale fees, accessible locations and convenient hours.

As Tri-City Health Center evolves with the ever changing healthcare landscape, our commitment to the community will stay the same; **"To provide the highest quality of care to all individuals with the utmost respect and dignity"**

Please join us for a morning of entertainment, information and fun! All screenings and measurements will be conducted privately by a medical professional, and results will be released only to you.
